Md. Rafi Un Noor Washik

Architect | Interior Designer | UX Designer | Associate Architect at Studio SpaceJam | UX Designer at Bayanno Vuj | Dhaka, Bangladesh

Summary

I am an architect and interior designer. I have been working in this sector for almost 5 years. I have good skills with software like : Sketch up , AutoCAD , Revit , Lumion , Adobe creative suite etc.. I have a good experience on site works too as I had to do it for both my workplace.

I've been trying to learn and working as an User Experience Designer . I've done courses and workshops to understand and imply UX and UI design. After that I joined Bayanno Vuj as an intern UX designer. I learned the marketing side and practical aspects of UX design and gained promotion in there as an UX designer . I'm still learning UX designed in my everyday professional life.

I have expertise in Figma , Fig jam , Miro , Zeplin , Sketch etc. I'm learning adobe XD too but still I feel comfortable in working figma.
